

# INDIVIDUAL LIFE PLAN (ILP)

## Goals & Objectives

Life Skills

Job Readiness

Leadership Development

Community Change

The Open Door America approach is basic and commonsensical:  
Change the climate and future of an impoverished community by focusing  
attention on young adults with children over an extended period of time.

*No quick fixes. No simple answers.*

Instead, move toward a future in which young adults  
complete their education, clean up past mistakes, compete in the workforce,  
and assume the mantle of leadership within their families and communities.
